

The Sign You've Been Waiting For

Adam's Road

It's all behind us and even though you cannot see into the past
Our memories remind us even the bad times never last
We act so mean sometimes but that's just a flash in the pan
Seen in a different light mistakes become plans

And I want you to take it
Take it all away from me
I've been lost and looking for so long it's hard to see

And when you find your head better keep it on straight
Run to the One that can make the pain go away (Jesus loves you)
And when you look up into the big black sky
Find the brightest star and feast your eyes upon it
It is good, it is so good (Gen. 1:18)

And when you plant your feet on the ground plant them strong
And take a minute to give thanks for all of the good in all of
The world around you, it's all around you

In times of clarity like this there is a certain sense of awe
It may be hard to explain exactly what you saw

But there is no doubt in the mind
This is the sign you've been waiting for
There is no doubt in the mind
This is the sign you've been waiting for

And when you find your head better keep it on straight
Run to the One that can make the pain go away (Jesus loves you)
And when you look up into the big black sky
Find the brightest star and feast your eyes upon it
It is good, it is so good (Gen. 1:18)

And when you plant your feet on the ground plant them strong
And take a minute to give thanks for all of the good in all of
The world around you, it's all around you

Now I stand on the roof and kind of try to collect my thoughts
Why do some things come so easily while most things are hard sought?

But there is no doubt in the mind this is the sign you've been waiting for
The heavens open wide, and an angel descends like a dove

And this is the sign that you've been waiting for
